

FABIO EVERTON

OCI & AI Solutions Architect

AI Governance | Business-Technology Bridge

Brasília, DF - Brazil

PROFILE

I am not a junior competing on syntax. I am a senior professional applying 16+ years of business execution - P&L, contracts, risk, governance, compliance, multi-stakeholder delivery - to Cloud Architecture and AI Systems.

I have delivered 60+ turnkey corporate office projects end-to-end (bare shell to fully operational), managed compliance operations at Brazil's largest bank, and coordinated regulatory alignment across federal and municipal agencies.

Now I apply that same structured delivery discipline to designing cloud-native architectures, AI governance frameworks, and multi-agent orchestration systems.

CAREER TRAJECTORY

AI-Enabled Project Operations & Governance Initiative - Independent (AI, EdW, Act)	Dec 2024 - Present
Turnkey Infrastructure & Complex Project Delivery - Agregata Construccoes	Jan 2010 - Dec 2024
Banking Operations & Compliance - Banco do Brasil	2007
Government Relations & Regulatory Coordination - MERCOPLAN	2004-2006
